

## **Research Promotion Chair**

In order to achieve its mission “To advance the arts and sciences of HVAC&R to serve humanity and promote a sustainable world”, ASHRAE has one of the largest research programs in the world: more than 70-80 research programs are conducted yearly with a budget over \$2.5 Million, and the research results are made available to everyone, in every field.

The main duty of the Research Promotion committee is to “Raise money for Research, Education, Endowment (ASHRAE Foundation) and the General Fund”. 90% of the money collected in the campaign goes towards Research.

Remember, the most important way to get involved & support ASHRAE Research is to make a financial commitment and donate to your chapter. By financially contributing, besides helping in the development of new research, standards, guidelines and software benefiting your business & quality of life, you will get recognition at the Chapter and Society Level, where your name will be mentioned in ASHRAE Journal and at the Annual & Winter Meetings and you will get commemorative Coin.

For updated information on active research projects and grants by region, refer to [www.ashrae.org](http://www.ashrae.org)

For donation, please contact:
